Zemanta™
an Outbrain Company

Zemanta išče nove študentske moči!

Te zanima delo z najnaprednejšimi tehnologijami, ob res dobrih inženirjih in na inovativnih projektih? Poznaš odgovor na spodnje vprašanje in bi si želel delati kot full-stack developer ali pa podatkovni analitik?

Prijavi se na **jobs@zemanta.com**

```python
from FEE import studenti

from zemanta import match, apply

round_table = ['ti', 'una_tm', 'on', 'js', 'oni', 'one', 'ono', 'un_tm_zad',
               'ta_tlele', 'un_tadrug']

for lady_or_knight in round_table:
    if match(lady_or_knight, ['data driven', 'enthusiastic', 'python-able',
             'responsible', '20hours-a-week-for-holy-grail-searching',
             'golang-speaking', 'eager to learn while being paid']):

    print('Stop! Who would cross the Bridge of Death must answer me these
           questions three, \'ere the other side of Zemanta he see!')

    name = input('What is your name?')

    quest = input('What is your quest?')

    answer = input('What... is the air-speed velocity of an unladen swallow?')

    apply(name, quest, answer)
```
