Intensive English and Intercultural Communicative Competence

SUMMER
CAMP

AUGUST | RIGA | LATVIA

We are living in the century when the whole world can be recognized as one common space where we all should get along and care for each other and the planet.

Thanks to modern technical progress, we can go to any place on the globe, just pick one you like more.

Due to this fact we are able to meet different people, but are we ready for it?

Are we ready to understand diverse cultures? Will we understand them?

Riga Technical University is offering wonderful opportunity to wide your inner boundaries and come to Latvia for Cultural Difference, Intercultural Communication and, of course, English proficiency experience.

Participants are welcomed to the heart of the Baltic region – Latvia and its capital city Riga, the vibrant and modern European city. Students will be able to meet Latvian culture in person. But not only Latvian. The summer school's aim is to show participants how diverse our world is! The best way to perceive it is learning by sharing your own personal experience supplementing it with presence in an unusual environment.

KEY ASPECTS OF LEARNING

- The course is designed not just to improve English language learners' communication level so they can use it in everyday life, work and study, but also to improve intercultural communication skills that will enhance personal marketability.

ROLE OF SCHOLARS:

- Work in interactive classes
- Specific interest for learning
- Comprehend and be self-confident
